- Responsicve web Design

## PROFILE

I am passionate about combining design and technology to make websites that are not only attractive but also user-friendly and perform well on any device.As a Front-End Developer, I design and build the part of websites and web applications that users interact with directly.My goal is to create digital experiences that are fast, intuitive, and meet the needs of users.

## PROJECTS

Developed a e-commerce website using React for the frontend. Implemented key features such as a shopping cart, product catalog, and product filtering.  
Technologies used: React, JavaScript, CSS.

- Built a personal portfolio website to showcase my web development skills and projects. The responsive design ensures the portfolio is functional across various devices, from desktops to smartphones.
- Technologies used---->Html, CSS, Javascript,React
- 
- Some other projects like Tourism or Agricultural projects for my personal practice by using html css scss and javascript
